### **About the CVHS Foundation**

The CAPISTRANO VALLEY HIGH SCHOOL FOUNDATION was established in 2005 to help celebrate Capistrano Valley High School's alumni, provide funding to enrich the educational experience of currently enrolled students and to transform the future for students by helping to provide funding and support for important school needs. Research demonstrates that appropriate educational facilities encourage student's participation in the arts, which is critical to the successful development of the 21<sup>st</sup> century student. As a result, one major project is to provide support for an on campus performing arts facility. We have raised money towards a performing arts theater, assisted in daily school needs and have helped provide scholarships to students at Capistrano Valley.
